SUMMARY

Aspiring Java Developer with a solid foundation in software development and a proven track record in creating efficient, scalable applications. Seeking to leverage my expertise in Java and SQL in a dynamic tech environment.

EDUCATION

B. TECH - Information Technology

Panimalar Engineering College 2022 – 2026 CGPA - 8.8*

Higher Secondary

Anderson Higher Secondary School 2021 – 2022 Percentage - 80%

SKILLS

Programming Languages:

- Java
- . SQL

Web Technologies:

- HTML
- . CSS
- . JavaScript

Version Control:

- · Git and GitHub
- VS code

Others:

- · OOPS
- . Data Structures
- . JDBC

CERTIFICATIONS

- Java Certification HackerRank, June 2024
- SQL Certification HackerRank, July 2024
- Front End Developement Meta, April 2024

PROJECT

Multiple Search Engine

- Technologies Used: HTML, CSS, JavaScript
- Description: Developed a web application that enables users to conduct searches across multiple search engines simultaneously. Implemented a user-friendly interface for efficient search experiences and improved search result aggregation.

Hospital Management System

- Technologies Used: HTML, CSS, JavaScript, SQL
- **Description:** Developed a comprehensive hospital management system with a primary focus on database management. Implemented functionalities for patient records, appointments, and billing, ensuring efficient data handling and seamless user interaction. Improved patient record accessibility by 40%.

Intelligent Chatbot for Agriculture

- Technologies Used: NLP, Machine Learning, AI
- Description: Developed a smart chatbot to assist farmers with personalized agricultural advice. Implemented functionalities for crop selection, pest control, weather updates, and market trends, ensuring accessible and accurate information. Enhanced decision-making efficiency for farmers by 35%.

SOFT SKILLS

Communication: Effectively communicated project updates to team members and stakeholders, ensuring

- alignment and understanding. Problem Solving:
 Resolved technical issues promptly, reducing downtime
- and improving system performance. Adaptability:
 Quickly adapted to new technologies and tools during a system upgrade, minimizing disruption and maintaining productivity.
